Subject: UofT Faculty of Medicine Conflict of Interest - Reminder of Policy and COI template slide

To: Residency Program Directors and Family Medicine Site Directors
cc: Program Administrators

Dear Colleagues,

I am writing to remind you of the attached document “**Relationships with Industry and the Educational Environment in Undergraduate and Postgraduate Medical Education**” approved by Faculty Council in February 2013.

These standards apply to faculty members, medical students, and trainees in all practice settings where there are learners: both university affiliated institutions and in the community.

Please review the attached document, particularly the items on educational programming and program support.

Our expectation is that all faculty lecturers include a conflict of interest slide on presentations (a template is attached here). Please make every effort to ensure that presenters are aware of this. The Relations with Industry document is on our website at <http://bit.ly/2alqnwk> under Policies/Conduct for your ongoing reference.

I invite you to circulate this information widely to your program committees, site leads, chief residents and education coordinators. There will be further initiatives to help address conflict of interest and we will discuss these at future PGMEAC meetings.

If you have any questions or concerns please feel free to contact me.

Sincerely,

GLEN BANDIERA MD, MEd, FRCPC
Professor, Department of Medicine
Associate Dean, Postgraduate Medical Education
