1	Topics geared towards seasoned administrators would be nice.	7/18/2017 11:07 AM
2	I believe a lot of them were held on Thursday's mid morning which are busy days for me. A morning meeting starting first thing would be ideal.	7/12/2017 12:52 PM
3	Videoconferencing options would be great	7/12/2017 11:45 AM
4	Offer webinars or another way to participate online.	7/12/2017 11:30 AM
5	Hold the sessions as webinars, or Skype, or adobe connect so people outside of downtown Toronto can attend more conveniently.	7/12/2017 8:30 AM

1	I think new employees should attend all sessions if they can.	8/1/2017 3:33 PM
2	-POWER: I attended a POWER session which not relevant to me but another user group. It was advertised that two sessions were being held that month, but it was not clear that were two different groups involved. I really did feel like I wasted my time which was in May, which is one of the most busiest times of the year. -PARO-Caho contract session, should be offered only when there are changes. Same with PARO sessions. -Minimizing the Room misinterpretation of your Good Intentions session was a good one. I don't think your choices on the drop down, cover the responses choices needed. It was very interesting but not everyone's interest, so should be repeated I don't know.	8/1/2017 2:04 PM
3	its either I did not attend or does not pertain to what I do.	8/1/2017 1:57 PM

10	I wish I could have attended more. Would OTN be an option in the future?	7/14/2017 11:54 AM
11	for the ones listed "OTHER" these were sessions I did not attend	7/14/2017 11:21 AM
12	I went to an accreditation session in 2016 and the information I was given regarding the agenda was either incorrect or the information regarding interviews of one resident (if there is only one resident) in the program was not properly communicated to my IRC which negatively impacted our review (both on the day and afterwards in the final report). It makes me not trust the information that is presented in these sessions.	7/13/2017 11:09 AM
13	Bridgepoint does not yet perform all the functions of a standard fully affiliated academic hospital so not all the topics above are currently directly relevant. But as we become more involved with more aspects of medical education we will certainly be taking more sessions.	7/13/2017 10:03 AM
14	All of the above is relevant to fairly new admins. If you have been doing this for a long time, you tend to only go to workshops where they are talking about something new.	7/13/2017 7:56 AM
15	didn't attend lots of these so can't comment on them	7/12/2017 10:31 AM
16	Majority of the above topics doesn't relate to me	7/12/2017 10:04 AM
17	Most of these topics are relevant because there is always new staff whom may find the topics helpful. As CBD moves forward, the topics will need to change to suit the need of where the programs are.	7/12/2017 8:44 AM
18	"other" meant to me the topics that are not in the realm of the job: i.e., the UT rep is the final administrator link to PGME	7/12/2017 8:21 AM
19	Re my OTHER comments: most are because I do not deal with residents/MOH/PGYs - I do strictly Clinical Fellows, so irrelevant to me. I have no idea what CBME means, nor what the May 11/17 content would have been	7/12/2017 12:06 AM
20	The CBME session was good but a little confusing, not the fault of the organizer. This should be repeated, but only until the divisions are all included. The PGY1 and PGCoEd are not relevant for PGY4-5 programs. This would be good for PGY1-3 each year.	7/11/2017 4:17 PM

21	Unless there are changes in the process. Accreditation benefits the ones who will be going through the process in the stated year, for the rest it maybe irrelevant.	7/11/2017 3:57 PM
22	A lot of the information sessions were held on Wednesday's this year which is our site's academic lecture day. I am the primary organizer for our sessions therefore need to be on site and missed out on most of this years informational series.	7/11/2017 3:48 PM
23	I mainly picked somewhat irrelevant only because they don't relate to my job, I believe they are useful though to a specific group.	7/11/2017 3:47 PM

3	I know it's not your core area - but information about faculty development for medical supervisors including the CPD requirements of the various Colleges and the preferences of the UofT Faculty of Medicine would be valuable for us. Also, again not your care area, but a part of what my office does, academic appointments within the Faculty of Medicine - processes. Thank you	7/13/2017 10:30 AM
4	A session or two per year on website setup and management would be extremely relevant and useful.	7/12/2017 9:47 AM

1	I like the recognition award at year-end idea.	8/1/2017 12:58 PM

3	I don't think networking has to be in each session - but one session that is specific for that purpose might be nice	7/13/2017 11:12 AM

4	Resource manual - that would be sooooohelpful. The Faculty website is really opaque and I can't always see the things that students see so i can't work out how all your processes work. Also - where you can, please ensure that your databases can support at least two contacts per rotation - one of them the relvant admin in the hospital - NOT just the supervisor.	7/13/2017 10:30 AM
5	Resource manual or web page would be wonderful.	7/11/2017 3:44 PM

1	I don't think it is necessary.	8/1/2017 2:15 PM
2	cash/gift cards, with award certificate the process of nomination should be semi-formal, self-nomination with letter of supports from Supervisors/Site Directors/faculty/program admin etc.	8/1/2017 12:58 PM
3	N/A	7/17/2017 10:55 AM
4	I don't think I really need anything fom the Faculty, but thank you for the thought. In practical terms more flow of staff between hospitals and the Faculty would be valuable in increasing understanding of the other's priorities and processes.	7/13/2017 10:30 AM
5	Years of service pins (not charms or pens)	7/12/2017 12:11 AM
6	letter to program director/ chair of program	7/11/2017 3:44 PM
