PROGRAM AT A GLANCE

1:30 pm  Keynote by Dr. Wendy Lai
Emergency Physician
President, Doctors Without Borders/Médecins Sans Frontières Canada

Dr. Wendy Lai is an emergency physician at Humber River Hospital in Toronto and the president of MSF Canada. She has worked with Doctors Without Borders/ Médecins Sans Frontières since 2006, in a variety of settings including the Democratic Republic of Congo, Haiti both before and after the earthquake, and Central African Republic. She has taught Emergency Medicine to residents in Addis Ababa through the Toronto-Addis Ababa Academic Collaboration.

Domestically, she has practiced in rural community hospitals and in the Canadian Arctic. She was elected to the board of directors for MSF-Canada in 2015. Wendy earned a biochemistry degree with great distinction from McGill University, a medical degree from the University of Western Ontario, and studied Family Medicine at the University of Toronto. Her Emergency Medicine qualification was earned through years of practice. She is currently working towards a Masters of Public Health at Johns Hopkins University.

Comment by Dr. Catharine Whiteside, Executive Director, Diabetes Action Canada; Emerita Professor and Former Dean of Medicine 2006-2014, University of Toronto

Introductions and Moderating by Dr. Tanzila Basrin, Family Medicine, PGY2 and Dr. Vivian Tam, Family Medicine, PGY1

3:00 - 4:00 pm  Roundtables #1, 2, 3 and 4
#1 Lead is Professor Carmen Logie
Global Health Equity: LGBTQ health and human rights
Moderated by Dr. Lisette Yorke, Pediatrics, PGY4

Professor Carmen Logie is an Associate Professor at the Factor-Inwentash Faculty of Social Work, University of Toronto and an Adjunct Scientist at Women’s College Research Institute. Dr. Logie’s research focus is health equity, with particular attention to the associations between intersectional forms of stigma, access to care, and health outcomes. She has active programs of research in collaboration with internally displaced women and youth, LGBTQ populations, and people living with HIV in Canada, India, Thailand, Jamaica, Swaziland and Lesotho. She was a Canadian Institutes of Health Research (CIHR) post-doctoral fellow and her postdoctoral research focused on the health impacts of multi-dimensional forms of stigma and discrimination, including racism, sexism and HIV-related stigma, among diverse women living with HIV in Ontario. Dr. Logie was awarded a Grand Challenges Canada Rising Star in Global Health award to develop, implement and evaluate an HIV/STI prevention intervention with internally displaced women in Leogane, Haiti (2011-2012).

Dr. Logie’s teaching interests include research methods, health and mental health theory and practice, LGBTQ affirmative practice, intersectionality and structural violence. Her practice experience includes over a decade of work with youth and adults in community, health care, government and hospital settings in Canada, the U.S., the United Kingdom and Ghana. She has worked as part of multidisciplinary teams in: community mental health; medical social work; hate crime prevention; HIV prevention; case management; and family, youth and crisis counselling.
PROGRAM AT A GLANCE

#2 Lead is Dr. Donna Stewart
Intimate Partner Violence and Sexual Violence Against Women
Moderated by Dr. Tanzila Basrin, Family Medicine, PGY2

Dr. Donna Stewart is the inaugural Lillian Love Chair in Women’s Health at the University Health Network and the University of Toronto. She is a University Professor with appointments in the Faculty of Medicine in the Departments of Psychiatry, Obstetrics/Gynaecology, Medicine, Anaesthesia, Family and Community Medicine, and Surgery at the University of Toronto. She is a senior scientist at Toronto General Research Institute. She has 16 active research grants and has published over 350 articles in peer-reviewed, scientific journals. Dr. Stewart's research interests are in women's health, violence and resilience, women's mental health, international women’s health, social determinants of health, psychological aspects of reproductive health and physical illness such as heart disease and cancer. In the mental health field, she has looked at depression across the life cycle, psychosomatic obstetrics and gynecology as well as the psychological aspects of physical illness. Her work also addresses violence against women in Canadian and immigrant women. She has conducted research on public health and policy aspects of women's health (antenatal and postpartum care, violence, trafficking, drug safety and international health) which have had a major impact on public policy.

#3 Lead is Dr. Suzanne Shoush
Women and Girls: Indigenous Communities, health and human rights
Moderated by Dr. Emma Skolnik, OBS/GYN, PGY2

Dr. Suzanne Shoush is currently a physician at the St. Michael’s Hospital Academic Family Health Team, and Inner City Health Associates Seaton House Infirmary Program. Prior to joining the St. Mikes team, Dr. Shoush worked extensively in both urban and rural family medicine. She has traveled extensively throughout rural and remote parts of the province as a Rural Family Physician. She also works with a keen focus on health equity and is a passionate advocate for Indigenous Cultural Safety Training.

Dr. Shoush received her MD from the University of Alberta. Prior to becoming a physician she completed a Bachelor’s of Engineering (Electrical/Biomedical) at the University of Alberta. She went on to receive a grant from the Natural Sciences and Engineering Research Council of Canada (NSERC) to research in Medical Physics at the BC Cancer Agency in Vancouver. Her research went on to receive joint funding from the National Institute of Health leading her to the MD Anderson Cancer center in Houston TX/UT Austin Photonics Lab where researched/developed for techniques for invivo diagnostics of cervical cancer. In addition to research in medical physics, Dr. Shoush has shown a keen interest in research in sustainable development, knowledge translation and Indigenous Health. She was the recipient of a Young Professionals International Grant and went to work with UNESCO in Paris, France, where she was a research intern in the Local and Indigenous Knowledge Systems (LINKS) program. This work was in contribution to meeting the UNESCO Millennium Development Goals for World Indigenous Peoples. She has also undertaken many other research initiatives in Indigenous Health. Dr. Shoush was also involved in curriculum development for Indigenous Health at the University of Alberta School of Medicine and Dentistry, and she continues to work on teaching medical learners about Indigenous Health. Dr. Shoush is of Indigenous Heritage; her mother’s family comes from the Douglas First Nation, one of the Stʼatlʼí̓lmx communities in South West British Columbia, while her father is from North Africa.
PROGRAM AT A GLANCE

#4 Lead is Professor Marieme Lo
Women and Girls: gender and politics
Moderated by Dr. Sara Porisky, OBS/GYN PGY3

Professor Marieme Lo is the Director of the African Studies program at New College, University of Toronto and cross appointed to the Women and Gender Studies Institute. Her research and publications span, among others: the political economy of gender and development; the human and political ecology of environmental change and disaster in Africa; trade, informal economies, material cultures, female entrepreneurship and neoliberalism; transnationalism, globalization, citizenship and migration studies; and social exclusion, inequality and livelihood studies. Her research foci are grounded in critical, feminist, epistemic, and discursive frameworks, the search for alternative epistemologies, and a strong commitment to social change and social justice. Professor Lo has been collaborating with grassroots women’s organizations and civil society networks as well as international organizations such as UNDP, UN-Women and WFP.

4:15 - 5:15 pm Roundtables #5, 6, 7 and 8

#5 Leads are Dr. Nabiha Islam, Azeezah Kanji and Ruma Ruma
Women and Girls and the Rohingya Crisis
Moderated by Dr. Chelsie Warshafsky, Obs/GYN PGY3

Dr. Nabiha Islam completed her residency July 2018 and is currently a staff internist at Scarborough Birchmount Hospital. She is working to combat individual and collective experiences of Islamophobia through her work on the Toronto Academic Health Science Network (TAHSN) Learner Environment Task Force, including implementation of a hijab policy for the OR. Throughout medical school and residency she has traveled to Bangladesh for both clinical practice and research with urban and rural poor and most recently worked with Rohingya refugees through the Hope Foundation for Women and Children of Bangladesh. She has also provided free healthcare to Syrian refugees on the Syrian-Jordanian border with the Islamic Medical Association of North America.

Azeezah Kanji is a legal analyst and writer based in Toronto. She received her Juris Doctor from University of Toronto’s Faculty of Law, and Masters of Law specializing in Islamic Law from the School of Oriental and African Studies, University of London (UK). Azeezah is Director of Programming at Noor Cultural Centre, a Muslim religious, educational, and cultural institution in Toronto. She is also a regular opinion writer for the Toronto Star, focusing on issues related to race, law, national security, and human rights.

Hello. My name is Ruma Ruma, I am 17 years old, I am currently in grade 12. My interest is in math and sciences. After graduating high school, I am hoping to go to University of Waterloo for biomedicals. My life before, was living in the poverty of the refugee camps in Bangladesh, as a Rohingya. I came to Canada in 2007 when I was 6 years old with my family. Currently I am really active, I volunteer a lot. I am part of a play and documentary called ‘I am Rohingya”, it’s a play that lets the world know about the Rohingya genocide. I get invited to many programs and meetings. I attend most of our screenings in different cities for the Q&A. My passion is in the medical field. It was something I was always interested in. Medical draws me in because it amazes me. In the future I hope to pursue a career in the medical field and become a Doctor/surgeon. I chose doctor (specially a cardiac surgeon), because knowing about the heart of a person is very valuable to me. I also want to save the innocent lives of People who are dying for a reason they don’t know.”
PROGRAM AT A GLANCE

#6 Lead is **Syeda Zaki**

Women and Money: How Financial Literacy Benefits Low Income Women  
"Lessons learned in sanitation and menstrual hygiene management, the purchasing power (or lack thereof) of women and girls; designing for solutions"  
Moderated by Dr. Lulú Espinosa, Anaesthesia Fellow

Syeda Zaki is an Investment Manager with the Transition to Scale program at Grand Challenges Canada. In this role, she is involved in all stages of the deal process, from sourcing and screening pipeline to negotiations and management post-investment, seeking to support the most promising innovations with potential for scale and impact. Ms. Zaki was previously a consultant with Purpose Capital, an impact investment advisory firm, where she conducted financial and operational due diligence on startup social enterprises. Prior to Purpose Capital, Ms. Zaki worked with Acumen Fund in Pakistan as a portfolio consultant, conducting due diligence on investment opportunities in health and education.

She was also involved in the post investment management of Acumen’s micro-finance investees in Pakistan. Ms. Zaki currently volunteers as the finance director of Youth Social Innovation Capital Fund, an impact investing fund for young social entrepreneurs in Canada. Prior to making a shift to the impact investing space, Ms. Zaki was an equity research analyst at a brokerage in Pakistan.

Ms. Zaki has a BSc. in Economics & Finance from Queen Mary, University of London and has passed her CFA Level 1 exam.

#7 Lead is **Professor Rose Torres**

Women, Girls and Social Justice Education  
Moderated by Dr. Julianna Deutscher, Emergency Medicine, PGY1

Professor Rose Torres has a PhD in Sociology and Equity Studies in Education and Women and Gender Studies from the Ontario Institute for Studies in Education (OISE) of the University of Toronto (U of T). She is a Lecturer at the Social Justice Education Department of OISE/U of T. Her teaching and research interests are in the areas of: Critical Race and Gender Studies, Transnational Feminisms, Queer Studies; Global Health, Indigenous Epistemologies, and Asian/African/studies.

Dr. Torres is currently working on a book that is focus on “Re-imagining Filipina Geographies in the Diaspora”. It centers on re-imagining feminist development reflexively through asking; who gains out of feminism? Is feminism only for pinays? Drawing from an Indigenous, women of colour feminisms and queer of colour critique, it asks about feminist futurity and the place of Indigenousness, sexuality and womanhood in transnational movement of bodies. It seeks to create and re-create feminisms that speaks to the differences in terms of race, class, gender, ethnicity, citizenship, nationhood, sexuality, and other identity politics. The book is a poetic reconstitution of Asian imaginaries beyond provincial conception of a normal pinay. It complicates politics of negotiating boundaries in ways that comes to imagine Asian bodies as capable of circumventing Western conceptualization of broken bodies.

Dr. Torres commitment to community engagement is applied in her work as an International Community Development Consultant of the Children and Relief and Rescue Foundation in Kenya and Women’s and Children’s Groups in the Philippines. She was the former Executive Director of ICARE Foundation International in Toronto.
PROGRAM AT A GLANCE

#8 Lead is Jocelyn Mackie
Women, Girls and 'grand health challenges
Moderated by Dr. Tanzila Basrin, Family Medicine, PGY2

Jocelyn Mackie is Co-CEO of Grand Challenges Canada, giving leadership and oversight to all aspects of the organization’s innovation platform, together with Co-CEO Karlee Silver. Prior to being appointed co-CEO, Ms. Mackie was Vice President Operations & General Counsel at GCC where she led the Finance, Operations, Legal, and Communications teams, providing leadership and oversight on the organization’s operations, funder relations, deal structuring and negotiations (on grant and non-grant financing deals), financial accountability and risk mitigation management, as well as providing legal and compliance oversight.

Prior to joining GCC, Ms. Mackie provided legal and strategic advice to pharmaceutical and technology companies at a boutique law firm with offices in Toronto, Washington and New York. She specialized in intellectual property law and litigation, as well as lobbying for legislative change in Washington and Ottawa. Ms. Mackie started her academic pursuits studying languages and international development, and spent time digging latrines and helping to set up a self-sustaining micro-enterprise for rural women in Honduras. Ms. Mackie has a MSc from the University of Toronto, where she jointly authored a book on ethical decision-making and corporate social responsibility in the bioscience industry. She has a JD from the Faculty of Law, University of Toronto, and an honours business degree (HBA) from the Richard Ivey School of Business, University of Western Ontario. She is called to the Ontario Bar and the New York State Bar.

5:30 pm Refreshments and networking
GOALS AND OBJECTIVES

The 2019 Global Health Day is planned by a resident committee from across programs and specialties and will include passionate presenters who have established themselves as effective leaders committed to enhanced, equitable and sustainable health and well-being for women and girls across the world.

The specific educational objectives for participants are to:

• introduce themes and issues related to global health for women and girls from a variety of perspectives.

• develop a deeper understanding of motivations and processes for effective global health activism and advocacy for/by women and girls.

• encourage participation and engagement in advancing global health for women and girls.

• create a forum for peer to peer discussion; to share global health concerns, education, and experience.

Your 2019 Global Health Day Resident Planning Committee
Dr. Tanzila Basrin, Family Medicine, PGY2
Dr. Shannon Chun, Emergency Medicine, PGY2
Dr. Paul Dolinar, Family Medicine, PGY1
Dr. Tahrin Mahmood, Internal Medicine, PGY2
Dr. Vivian Tam, Family Medicine PGY1
